

Lake Forest Academy

The Academic Support Program is designed to meet the constantly changing needs of both students and teachers. The foundation of the program is for teachers and students to work together as a team in the learning process; by providing proactive support. If a student is having academic difficulty for any reason, that student or his or her parent(s), advisor, or teachers may contact the Learning Resource Coordinator. Once a referral is made, an informal individual plan is developed for each student to determine and, if necessary, assist in working with possible learning difficulties. This may involve attempting alternate teaching strategies, focusing on time management, or working on developing stronger study habits and skills in meetings with the Learning Resource Coordinator.
